To Whom It May Concern

I have had the pleasure of coaching Justin Moran for the 1993 football season, and throughout this period I have found him to possess the skills and attitudes one would expect of a fine young Australian.

Justin is supported by a solid family environment and consistently balances his responsibilities with his education, sport and family life with maturity and organisation. He is a gifted sports person who is a valued member of a successful team.

A young man who meets challenges set for him with confidence and determination, he has a friendly demeanour and is popular with his peers.

I highly recommend Justin Moran for any position for which he may apply. Please contact me if any further enquiries are necessary.

Michael Boyd
U19 Coach
